BILINGUAL ADVISORY FIRM

Design with purpose.
Measure with rigour.
Decide using reliable evidence.

LIMANS Consulting & Advisory supports NGOs, agencies, projects and institutions in designing, monitoring and evaluating their interventions. We combine senior technical expertise with the contextual knowledge held by your teams to co-design solutions that are rigorous, usable and fit for purpose.

THREE NEEDS, ONE COHERENT CHAIN

01	Idea	>	Funding
02	Data	>	Decision
03	Project	>	Impact

Participatory methods with clearly defined technical accountability.

WHAT THE ENGAGEMENT HELPS ACHIEVE

Projects
Coherent, fundable proposals.

Data
Reliable and traceable information.

Decisions
Analysis and tools designed for use.

Capacity
Practices transferred to teams.

Based in Niamey. Priority coverage in Niger and West Africa, with mobilisation across the Sahel, Central Africa and remotely.

OUR SERVICES

Eight service lines addressing three core needs

Focused support for one stage or connected assistance across several points in the project cycle.

DESIGN

Idea to funding

01 Project and proposal design

Intervention logic, theory of change, results framework, narrative budget and MEAL annexes.

02 MEAL systems and learning

Indicators, tools, responsibilities, data flows, calendars, analysis and learning reviews.

MEASURE

Data to decision

03 Data quality and governance

Definitions, validation rules, traceability, DQAs and improvement plans.

04 Third-party monitoring: TPM

External verification of activities, results, risks and perceptions, including in hard-to-reach areas.

05 Evaluations, reviews, studies and surveys

Evaluation questions, methodology, sampling, supervised data collection and independent analysis.

USE

Project to impact

06 Dashboards and performance management

Readable indicators, dashboards and action tracking tailored to decisions.

07 Accountability to affected people: AAP

Safe channels, confidential handling, analysis and effective closure of the feedback loop.

08 Training and capacity strengthening

Applied training, coaching, work on client tools and progressive transfer.

SECTORS

- Humanitarian action, resilience and the HDP Nexus
- Agriculture, food security and livelihoods
- Governance, institutions and public policy
- Climate, environment and sustainable development

THE FIRM AND OUR METHOD

An agile structure with senior technical leadership

LIMANS Consulting & Advisory

A bilingual firm based in Niamey, LIMANS specialises in project design, MEAL systems, evaluation, accountability, data quality and results-based management.

A clear delivery model

The founder leads scoping, methodological direction and deliverable validation. Associate experts are mobilised according to the sector, country and methods required, with roles agreed from the outset.

TECHNICAL LEADERSHIP

Moustapha Ali Liman, Founder and Lead Expert, has more than twenty years of experience with UN agencies, international NGOs, multi-country programmes and public institutions.

CO-DESIGN WITHOUT BLURRING ACCOUNTABILITY

01 Joint scoping

Need, decisions, users, constraints and success criteria.

02 Fit-for-purpose co-design

Participation of the relevant actors for the mandate.

03 Technical delivery

Rigorous methods and deliverables under senior direction.

04 Validation and transfer

Testing, adjustment, documentation and ownership.

COMMITMENTS

- Senior direction
- FR/EN deliverables
- Confidentiality
- Tools designed for use

EXPERIENCE AND EVIDENCE

Documented references presented at the right scale

SELECTED FIGURES FROM THE FOUNDER'S PROFESSIONAL TRACK RECORD

20+ years of experience	**5** countries of direct posting	**10+** countries reached through multi-country programmes	**30+** partner organisations supported

THREE DOCUMENTED EXAMPLES FROM A BROADER TRACK RECORD

DESIGN

Participatory HDP Nexus review

FAO and global Food Security Cluster, South Sudan, 2022

5	156	3
initiatives	participants	workshops

MEASURE

Measurement and accountability in a protracted crisis

FAO, South Kivu, DRC, 2021

543	13	18
beneficiaries	sites	suggestion boxes

USE

Steering a national portfolio

FAO, Niger, 2024-2025

~30	39	~120
projects/year	partners	people trained

PUBLICLY ACCESSIBLE EVIDENCE

Participatory review and learning on the HDP Nexus in South Sudan, published on FAO's KORE platform and developed with the global Food Security Cluster.
